Harper's Bazar IN 1895.

Elegant and exclusive designs for Outdoor and Indoor Toilets, drawn from Worth models by Sandoz and Chapuis, are an important feature. These appear every week, accompanied by minute descriptions and details. Our Paris Letter, by Katharine De Fores, is a weekly transcript of the latest styles and caprices in the mode. Under the head of New York Fashions, plain directions and full particulars are given as to shapes, fabrics, trimmings and accessories of the costumes of well-dressed women. Childrens clothing receives practical attention. A fortnightly Pattern-sheet Supplement enables readers to cut and make their gowns. The woman who takes HARPER'S BAZAR is prepared for every occasion in life, ceremonious or informal, where beautiful dress is requisite.

An American Serial, Doctor Warrick's Daughter, by Rebecca Harding Davis, a strong novel of American life, partly laid in Pennsylvania and partly in the far South, will occupy the last half of the year.

My Lady Nobody, an intensely exciting novel by Maarten Maartens, author of "God's Fools," "The Greater Glory," etc., will begin the year.

Essays and Social Chats. To this department Spectator will contribute her charming papers on "What We are Doing" in New York society.

Answers to Correspondence. Questions receive the personal attention of the editor, and are answered at the earliest possible date after their receipt.

Send for Illustrated Prospectus.

The Volumes of the BAZAR begin with the first Number for January of each year. When no time is mentioned, subscriptions will begin with the Number current at the time of receipt of order. Cloth cases, for each volume, suitable for binding, will be sent by mail, postpaid on receipt of \$1.00 each. Title-Page and Index sent on application.

Remittances should be made by Post-office Money Order or Draft, to avoid chance of loss.

GUARANTEE SATISFACTION!

Those who have used them
are glad to recommend them.

SNOW BROS.—MESSRS: Your hot air furnace that was put into my house one year ago has added more to the real comfort of a home than any heating appliance ever used in my time, as every room can be evenly warmed the whole time at a comparatively moderate expense, with good healthful facilities for ventilation as well. We do not have to give any room in the house to stoves nor any work in cleaning up dirt in the care of them, and when the "good wife" is asked if she would not like her stoves back again her reply is: "I would not give up the furnace for three times its cost if it could not be duplicated," and so say we all.
